

City of Bowie

Memorandum

Thursday, August 4, 2022
Alfred D. Lott, ICMA-CM, CPM,
City Manager

STATUS REPORT

1. Sectional Map Amendment for Bowie, Mitchellville and Vicinity
Per City Council's request, staff has updated the Bowie Master Plan webpage on the City website to include information about properties that will be included in the comprehensive rezoning. The webpage will be updated as additional information becomes available. The joint public hearing of the District Council and County Planning Board is scheduled for 5:00 p.m. on September 27th. The City's public hearings will be on September 13th (Bowie Advisory Planning Board) and September 19th (City Council). Please contact the Planning Department with any related questions.
2. WB & A Trail Construction Update
On August 2, 2022, staff received a construction status report from KCI Technologies, the construction manager for the WB&A pedestrian bridge over the Patuxent River, a 550-foot truss bridge connecting the Washington, Baltimore & Annapolis Trail segments on the Prince George's and Anne Arundel sides of the river. Current status of the project is ongoing and on-schedule, with piledriving on the Anne Arundel County side of the river being performed. Clearing the area for the project has already been completed, and KCI confirmed a projected completion date of **June 2023** at this time. KCI staff in conjunction with Anne Arundel County hope to perform a drone flight of the project area soon to capture aerial photographs of the project progress, which staff have requested copies of.
