

City of Bowie

Memorandum

Thursday, September 19, 2024

Alfred D. Lott, ICMA-CM, CPM,
City Manager

STATUS REPORT

1. PGC Link Coming to Bowie

The County's on-demand transportation service was brought to the attention of City Council on November 4, 2021, also on the 2022 and 2024 Transportation Priority List to the County. It would be a micro-transit service similar to Uber, where users would use an app to request transport in key service areas. The County will soon start educating the public about its intention to launch PGC Link, a microtransit service, in Bowie and other cities as early as next week. We will be providing information and updating locals about this forthcoming service coming to Bowie, so please keep an eye out for any updates from the County on this.
